

CSSG20

JBL Commercial CSSG20 is an On-Camera Shotgun Microphone

The JBL Commercial CSSG20 is an On-Camera Shotgun Microphone that is compatible with both cameras & smartphones (using the splitter cable). It is a perfect mic to record audio when creating news gathering videos, vlogging, Youtube videos or Instagram reels, and for recording Interviews, wedding or party videography. Its condenser capsule ensures it captures crystal-clear sound, and the integrated shock mount helps reduce mechanical and vibrational noise from your recording.

The low battery indicator is handy when planning long shoots, so you can be better prepared.

Ideal for News gathering, Vlogging, Interviews, Videography for weddings, events, parties, etc.

FEATURES:

- High sensitivity condenser capsule with super cardioid pickup pattern
- Adjustable microphone gain in three steps: -10dB, 0dB & +10dB
- Built-in high pass filter to cut noise below 200Hz
- Standard cold shoe mount for convenient installation on camera
- Integrated shock mount to reduce mechanical & vibrational noise
- Powered by single 1.5V AA battery
- Low battery indicator
